Remaining Component Industries	56,920	\$85,584	1.30		5,904	-0.3%
Professional Svc. (Chmura Cluster)	145,755	\$93,141	1.43		14,891	-0.1%

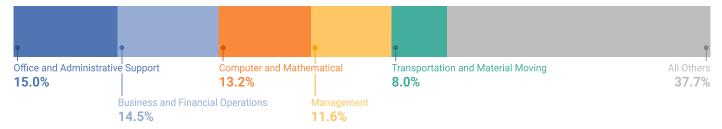

Employment is one of the broadest and most timely measures of a region's economy. Fluctuations in the number of jobs shed light on the health of an industry. A growing employment base creates more opportunities for regional residents and helps a region grow its population.

Since wages and salaries generally compose the majority of a household's income, the annual average wages of a region affect its average household income, housing market, quality of life, and other socioeconomic indicators.

Staffing Pattern

		Avg Ann	Annual
6-digit Occupation	Empl	Wages	Demand
Laborers and Freight, Stock, and Material Movers, Hand	7,028	\$33,300	948
Software Developers	6,655	\$111,100	567
Janitors and Cleaners, Except Maids and Housekeeping Cleaners	6,093	\$33,500	788
General and Operations Managers	4,889	\$143,200	432
Customer Service Representatives	4,715	\$40,500	606
Security Guards	3,989	\$36,000	536
Office Clerks, General	3,941	\$41,200	435
Management Analysts	3,842	\$117,200	368
Accountants and Auditors	3,645	\$82,500	297
Sales Representatives of Services, Except Advertising, Insurance, Financial Services, and Travel	3,215	\$74,100	355
Remaining Component Occupations	97,731	\$66,600	9,418
Total	145,742		

The mix of occupations points to the ability of a region to support an industry and its flexibility to adapt to future demand. Industry wages are a component of the cost of labor for regional employers.

Employment Distribution by Type

The table below shows the employment mix by ownership type for Professional Svc. (Chmura Cluster) for DuPage County, Illinois. Four of these ownership types — federal, state, and local government and the private sector — together constitute "Covered Employment" (employment covered by the Unemployment Insurance programs of the United States and reported via the Quarterly Census of Employment and Wages).

"Self-Employment" refers to unincorporated self-employment and represents workers whose primary job is self-employment (that is, these data do not include workers whose primary job is a wage-and-salary position that is supplemented with self-employment).

Empl	%
138,549	95.1%
7,104	4.9%
101	0.1%
	138,549 7,104

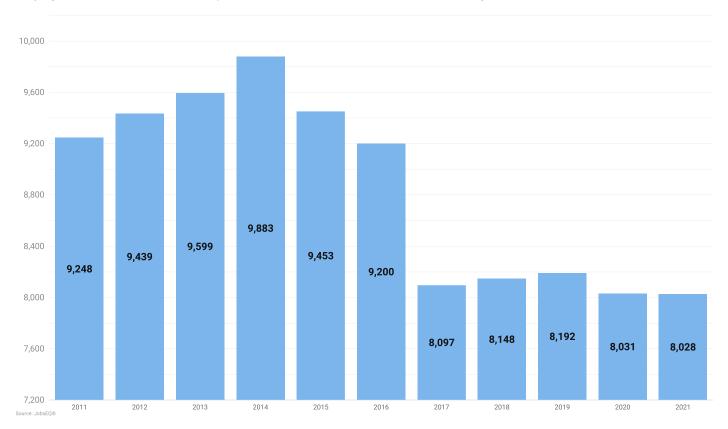

Source: JobsEQ®

Strong entrepreneurial activity is indicative of growing industries. Using self-employment as a proxy for entrepreneurs, a higher share of self-employed individuals within a regional industry points to future growth.

Establishments

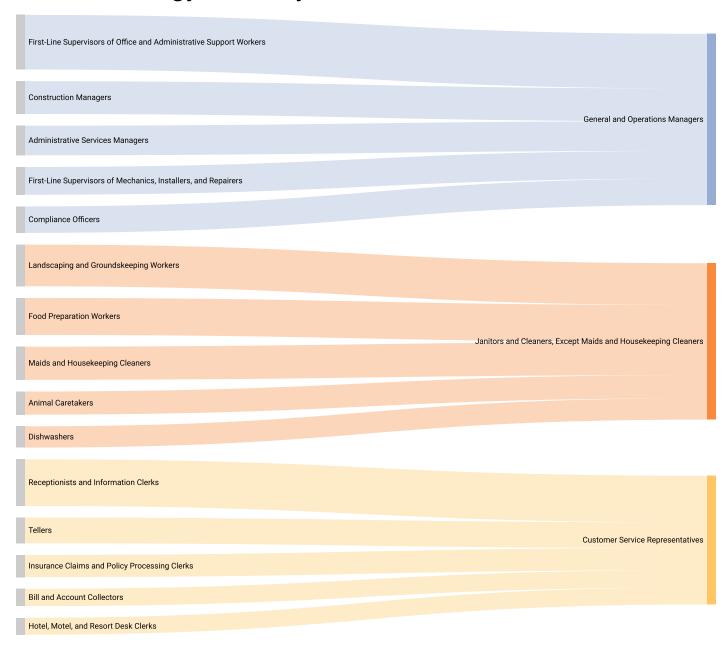

In 2021, there were 8,028 Professional Svc. (Chmura Cluster) establishments in DuPage County, Illinois (per covered employment establishment counts), a decrease from 9,248 establishments ten years earlier in 2011.

New business formations are an important source of job creation in a regional economy, spurring innovation and competition, and driving productivity growth. Establishment data can provide an indicator of growth in businesses by counting each single location (such as a factory or a store) where business activity takes place, and with at least one employee.

Sector Strategy Pathways

The graphics on this page illustrate relationships and potential movement (from left to right) between occupations that share similar skill sets. Developing career pathways as a strategy promotes industry employment growth and workforce engagement.

Postsecondary Programs Linked to Professional Svc. (Chmura Cluster)

561990	All Other Support Services

Data Notes

- Industry employment and wages (including total regional employment and wages) are as of 2022Q3 and are based upon BLS QCEW data, imputed by Chmura where necessary, and supplemented by additional sources including Census ZBP data. Employment forecasts are modeled by Chmura and are consistent with BLS national-level 10-year forecasts.
- Occupation employment is as of 2022Q3 and is based on industry employment and local staffing patterns
 calculated by Chmura and utilizing BLS OEWS data. Wages by occupation are as of 2022, utilizing BLS OEWS
 data and imputed by Chmura.
- GDP is derived from BEA data and imputations by Chmura. Productivity (output per worker) is calculated by Chmura using industry employment and wages as well as GDP and BLS output data. Supply chain modeling including purchases by industry are developed by Chmura.
- Postsecondary awards are per the NCES and are for the 2020-2021 academic year.
- Establishment counts are per the BLS QCEW data.
- Figures may not sum due to rounding.

FAQ

What is (LQ) location quotient?

Location quotient is a measurement of concentration in comparison to the nation. An LQ of 1.00 indicates a region has the same concentration of an industry (or occupation) as the nation. An LQ of 2.00 would mean the region has twice the expected employment compared to the nation and an LQ of 0.50 would mean the region has half the expected employment in comparison to the nation.

What is annual demand?

Annual demand is a of the sum of the annual projected growth demand and separation demand. Separation demand is the number of jobs required due to separations—labor force exits (including retirements) and turnover resulting from workers moving from one occupation into another. Note that separation demand does not include all turnover—it does not include when workers stay in the same occupation but switch employers. Growth demand is the increase or decrease of jobs expected due to expansion or contraction of the overall number of jobs.

What is the difference between industry wages and occupation wages?

Industry wages and occupation wages are estimated via separate data sets, often the time periods being reported do not align, and wages are defined slightly differently in the two systems (for example, certain bonuses are included in the industry wages but not the occupation wages). It is therefore common that estimates of the average industry wages and average occupation wages in a region do not match exactly.
