# Industry Snapshot

## EMPLOYMENT

## WAGES

2-Digit Industry	Empl	Avg Ann Wages	LQ	5yr History	Annual Demand	Forecast Ann Growth
Health Care and Social Assistance	1,863	\$70,779	0.88		180	0.0%
Administrative and Support and Waste Management and Remediation Services	1,820	\$57,991	2.18		187	-0.8%
Retail Trade	1,755	\$48,845	1.31		219	-0.9%
Accommodation and Food Services	1,144	\$30,870	0.95		191	-0.5%
Construction	1,120	\$95,769	1.35		88	-0.4%
Professional, Scientific, and Technical Services	828	\$108,126	0.82		66	0.1%
Management of Companies and Enterprises	721	\$171,599	3.32		56	-0.4%
Transportation and Warehousing	718	\$64,149	1.02		73	-0.4%
Educational Services	676	\$64,286	0.60		59	-0.6%
Wholesale Trade	621	\$108,704	1.21		57	-0.6%
Remaining Component Industries	2,596	\$91,235	0.62		245	-0.7%
<b>Total - All Industries</b>	<b>13,860</b>	<b>\$79,557</b>	<b>1.00</b>		<b>1,404</b>	<b>-0.5%</b>

Employment is one of the broadest and most timely measures of a region's economy. Fluctuations in the number of jobs shed light on the health of an industry. A growing employment base creates more opportunities for regional residents and helps a region grow its population.

Since wages and salaries generally compose the majority of a household's income, the annual average wages of a region affect its average household income, housing market, quality of life, and other socioeconomic indicators.

# Staffing Pattern

6-digit Occupation	Empl	Avg Ann Wages	Annual Demand
Laborers and Freight, Stock, and Material Movers, Hand	437	\$45,000	50
General and Operations Managers	403	\$146,700	29
Fast Food and Counter Workers	328	\$35,000	72
Retail Salespersons	301	\$40,700	39
Personal Care Aides	282	\$37,900	42
Cashiers	272	\$35,700	43
Customer Service Representatives	266	\$49,900	29
Office Clerks, General	239	\$50,100	23
Landscaping and Groundskeeping Workers	219	\$46,500	26
Automotive Service Technicians and Mechanics	219	\$62,700	17
Remaining Component Occupations	10,849	\$82,900	1,021
<b>Total</b>	<b>13,815</b>		

 The mix of occupations points to the ability of a region to support an industry and its flexibility to adapt to future demand. Industry wages are a component of the cost of labor for regional employers.

# Employment Distribution by Type

The table below shows the employment mix by ownership type for Total - All Industries for the Westmont village, IL. Four of these ownership types — federal, state, and local government and the private sector — together constitute “Covered Employment” (employment covered by the Unemployment Insurance programs of the United States and reported via the Quarterly Census of Employment and Wages).

“Self-Employment” refers to unincorporated self-employment and represents workers whose primary job is self-employment (that is, these data do not include workers whose primary job is a wage-and-salary position that is supplemented with self-employment).

	Empl	%
Private	12,219	88.2%
Self-Employment	706	5.1%
Local Government	801	5.8%
State Government	27	0.2%
Federal Government	48	0.3%
Other Non-Covered	58	0.4%

Source: JobsEQ®

 Strong entrepreneurial activity is indicative of growing industries. Using self-employment as a proxy for entrepreneurs, a higher share of self-employed individuals within a regional industry points to future growth.

# Sector Strategy Pathways

 The graphics on this page illustrate relationships and potential movement (from left to right) between occupations that share similar skill sets. Developing career pathways as a strategy promotes industry employment growth and workforce engagement.

# Data Notes

- Industry employment and wages (including total regional employment and wages) are as of 2025Q2 and are based upon BLS QCEW data, imputed by Chmura where necessary, and supplemented by additional sources including Census ZBP data. Employment forecasts are modeled by Chmura and are consistent with BLS national-level 10-year forecasts.
- Occupation employment is as of 2025Q2 and is based on industry employment and local staffing patterns calculated by Chmura and utilizing BLS OEWS data. Wages by occupation are as of 2025, utilizing BLS OEWS data and imputed by Chmura.
- GDP is derived from BEA data and imputations by Chmura. Productivity (output per worker) is calculated by Chmura using industry employment and wages as well as GDP and BLS output data. Supply chain modeling including purchases by industry are developed by Chmura.
- Postsecondary awards are per the NCES and are for the 2023-2024 academic year.
- Establishment counts are per the BLS QCEW data.
- Figures may not sum due to rounding.

# FAQ

## **What is (LQ) location quotient?**

Location quotient is a measurement of concentration in comparison to the nation. An LQ of 1.00 indicates a region has the same concentration of an industry (or occupation) as the nation. An LQ of 2.00 would mean the region has twice the expected employment compared to the nation and an LQ of 0.50 would mean the region has half the expected employment in comparison to the nation.

## **What is annual demand?**

Annual demand is a of the sum of the annual projected growth demand and separation demand. Separation demand is the number of jobs required due to separations—labor force exits (including retirements) and turnover resulting from workers moving from one occupation into another. Note that separation demand does not include all turnover—it does not include when workers stay in the same occupation but switch employers. Growth demand is the increase or decrease of jobs expected due to expansion or contraction of the overall number of jobs.

## **What is the difference between industry wages and occupation wages?**

Industry wages and occupation wages are estimated via separate data sets, often the time periods being reported do not align, and wages are defined slightly differently in the two systems (for example, certain bonuses are included in the industry wages but not the occupation wages). It is therefore common that estimates of the average industry wages and average occupation wages in a region do not match exactly.
